

What To Expect

- 1.** FREE 30-minute consultation about your needs and how we can most efficiently meet them.
- 2.** One FREE set of mock-ups based on the prior consultation.
- 3.** Once you've approved the mock-ups we'll begin executing your vision.
- 4.** At this stage be ready to hand off all of the content that you wish to be used on your site. (Logo files, photos, videos, text, social media links, etc.)
- 5.** Once the site is crafted to the design of the approved mock-ups we will set up a demo of the site on our servers for you to look through and make sure it is exactly what you had envisioned.
- 6.** Once the demo site has been approved we will arrange a launch day, pick a domain name, and then your website will be live! (Champagne optional)
- 7.** After the website's launch feel free to call or email anytime with any changes/updates/removals/etc. that you might need, we'd be happy to get it done for you!
